EDUCATION

Indian Institute of Information Technology, Ranchi
Bachelor of Technology

2022 – 2026
8.77

EXPERIENCE

Xinacle

July 2024 – June 2025

Software Developer Intern

Remote

- Developed and deployed full-stack softwares using **React Native, React.js, Laravel, Firebase, MySQL**, handling schema design, APIs, and admin panels — reduced development time by **30%**.
- Adapted to new tech stacks and customized third-party components, lowering integration issues by **25%**.
- Collaborated with clients to refine features, achieving **92% satisfaction** and improving load speed by **40%**.

India Accelerator

Jan 2025 – May 2025

Full Stack Developer Intern

Remote

- Enhanced and maintained applications using **ReactJS, Strapi**, reducing bug reports by **35%**.
- Implemented and tested new features under Agile sprints, improving release velocity by **20%**.
- Delivered high-quality releases within deadlines, cutting post-deployment issues by **30%** and boosting retention.

TECHNICAL SKILLS

Languages: C, C++, JavaScript, TypeScript, Python, PHP

Databases/Cloud: MySQL, MongoDB, Supabase, Cloudinary, HostingerDB

Tools: Git, GitHub, Postman, Mongoose, Prisma, Gemini API, StoryBook, Clerk, NextAuth, Arcjet, Inngest, Firebase, Firestore, Backpack, LiveBlocks, Blender, Expo three, Canvas, Fabric.js

Frameworks/Libraries: React.js, Laraval, React Native, Next.js, Express.js, Node.js, Tailwind CSS, Bootstrap, Redux, Context , LangChain, Socket.io, Sass, Shadcn/UI, MUI, JWT, Bcrypt, Ant Design

PROJECTS

Welth (AI Finance Website) | *Next.js, Prisma, Clerk, Gemini API, Inngest, Arcjet, Recharts*

- Developed an **AI-powered finance dashboard** with interactive charts and visualizations to analyze spending patterns, budget utilization, and financial insights.
- Implemented **automated email notifications** for monthly reports and alerts at **80% spending thresholds**, ensuring better budget management.
- Built a **multi-account financial tracking system**, enabling users to manage personal and business accounts, monitor real-time transactions, and reduce manual tracking by **60%**.
- Secured APIs with **Arcjet rate-limiting and bot detection**, improving platform reliability and preventing abuse.

Live Collaborative Design Editor (Figma Alternative) | *Next.js, Liveblocks, Fabric.js, Shadcn, jsPDF*

- Engineered an **interactive collaborative design editor** enabling object creation, shape manipulation, freehand drawing, and secure **PDF export**.
- Integrated **Liveblocks API** for multi-user real-time collaboration, including shared cursors, chat, and presence features, which increased team design efficiency by **50%**.
- Implemented advanced productivity tools such as undo, redo, reset, and customizable options, streamlining design workflows and improving overall usability by **40%**.

ACHIEVEMENTS

- Solved **400+ DSA** problems across different coding platforms (LeetCode, GFG).
- Ranked in **top 10** academically among **250+** peers in the branch.
- Written multiple articles on medium regarding topics like clean architecture.
