🔗 Portfolio

Education

B.Tech in ECE

Indian Institute of Information Technology (IIIT Ranchi)

CGPA : 8.80 | SGPA : 8.85

2022 – present

Ranchi, India

Professional Experience

Frontend Developer

Early stage startup

June 2024 – July 2024

Hyderabad, India

- **Developed** a **user-centric MVP** for a Hyderabad-based early stage startup, using **Next.js** to **streamline healthcare** and **personal assistance for digital marketing agents**. Designed and implemented key screens with a focus on **functionality** and **visual appeal**, aligning the interface with the platform's purpose. **Collaborated** with the team to deliver a **polished** and **impactful** prototype under **tight deadlines**, demonstrating **adaptability** and a results-driven approach.

Full Stack Developer

Xinacle

July 2024 –

December 2024

Kolkata, India

- **Spearheaded** the development of multiple web applications, managing **database schema design**, **API development**, **screen creation**, and **admin panel construction**. **Transitioned seamlessly** into a new technology stack, showcasing the ability to **quickly learn** and adapt while customizing third-party components to meet unique requirements.
- **Collaborated closely** with clients, integrating feedback to **enhance functionality**, **resolve issues**, and deliver **high-quality solutions** on schedule.

Skills

Languages

C | C++ | JavaScript | Python | TypeScript | PHP

Frameworks :

React | Nextjs | Laravel | Node.js | Express.js | MongoDB | PostgreSQL | React Native | Redux | TailwindCSS | Bootstrap | Git | GitHub | Fabric

Others

NextAuth | Clerk | Arcjet | Inngest | Google Gemini API | Firebase | Firestore | Backpack | Context API | JWT | Bcrypt | Ant Design | HTML5 | CSS Animations & Transitions | LiveBlocks | Shadcn | Blender | Prisma

Projects

Welth (AI Finance Website)

Nextjs | Prisma | Clerk | Gemini API | Inngest | Arcjet | Recharts

- <https://ai-finance-platform-bay.vercel.app/> 
- **Built** multi-account financial system enabling users to **track transactions**, **manage budgets** across personal/business accounts, and **monitor spending** in real-time
- **Developed** interactive **dashboard with chart visualizations** to display financial analytics, spending patterns, and **budget utilization insights**
- **Implemented** automated **email notifications** for monthly reports and **budget alerts at 80% spending**, plus **API security** with rate limiting and **bot detection using Arcjet**

Figma Clone

Nextjs | LiveBlocks | Fabric | Shadcn | jspdf | tailwindCSS

- <https://figma-clone-nu-ten.vercel.app/> 
- **Built** a Figma clone with object addition, shape manipulation, freehand drawing, and PDF export.
- **Integrated** Liveblocks for real-time collaboration, including cursor tracking, chat, and user presence, improving efficiency by 50%.
- **Implemented** design tools like undo, redo, resets, and customizable options, boosting productivity by 40%.
